Happy New Year!

From King and McCune Orthodontics

We had a great holiday brunch at Cherokee! It is always wonderful to spend time with these beautiful women.

2016 has been a great year! We are very lucky to have had April, Cassidy, and Kachina join our staff, we welcomed lots of great patients into the King and McCune Family, and we finished a beautiful office renovation.

With all the blessings from 2016, we are excited to see what 2017 has to come!

Has your experience in our office been great? Please leave us a review on Facebook or Google! It only takes a minute and we greatly appreciate your feedback. Plus for every review you will receive an Amazon or AMC gift card.

The Right Time for an Orthodontic Evaluation?

Even though most people think of pre-teens and teens when they think of orthodontics, there are good reasons your child should get an orthodontic evaluation much sooner. The American Association of Orthodontists recommends a check-up with an orthodontic specialist no later than age 7.

While your child's teeth may appear straight, orthodontists have a better ability to detect and monitor potential problems. Some problems, like expansion missing teeth, spacing, crowding, and eruption issues, benefit from early treatment.

Not all orthodontic evaluations result in orthodontic treatment. The evaluation may reveal that your child's bite is fine, or recommend monitoring your child's growth and development. Through an early orthodontic evaluation, you'll be giving your child the best opportunity for a healthy, beautiful smile.

Schedule an initial visit today at the front desk or by calling us at (404) 233-1972. Drs. King and McCune's goal is to provide each patient with the most appropriate treatment at the most appropriate time.
